

Master of Science (M.Sc.) in MOLECULAR MEDICINE

Offered by:
Department of Personalized
and Molecular Medicine,
Era University, Lucknow

CAREER Prospects

- Clinical Laboratory Director
- Genetic Counselor
- Clinical Research
- Biotech Entrepreneurship
- Medical Laboratory Technologist
- Pharmaceutical Industry
- Drug Discovery and Development
- Bioinformatics
- Diagnostics

Course Highlights

- **Course Duration:** 2 Years (4 Semester)
- **Eligibility Criteria:** 55% marks in Bachelor's degree in any field of Basic Life Sciences or Applied Sciences
- **Mode:** Full time

Admission Process

- Application as per University guidelines <https://student.erauniversity.in/>
- Entrance test/Interview based selection criteria
- Selection on the basis of entrance test and Interview

Why to choose molecular medicine?

- High-impact career prospects in academia, research, healthcare and biotechnology.
- Interdisciplinary curriculum blending molecular biology, genetics and their clinical applications.
- Hands-on training in advanced laboratory techniques and bioinformatics.
- Faculty with extensive research and industry experience.
- Opportunities for collaborative project with leading research institutions.
- Extensive lab based training in molecular diagnostics.
- Workshops on genetic sequencing techniques and CRISPR technologies.
- Internship opportunities in renowned biomedical research institutions and hospital.
- Dissertation project guided by expert mentors.

ADAPTABLE PROGRAM

A meaningful, flexible classroom experience tailored to your needs

RENOWNED FACULTY

With considerable expertise and talent, our renowned faculty deliver a deep and immersive academic learning experience

CUTTING-EDGE CURRICULUM

Our curriculum brings research-backed concepts into practice, by empowering you to transform knowledge into impact

STATE OF ART LABORATORY

Our state-of-the-art labs empower you to push the boundaries of science and explore new frontiers in medical research.

LIFE-LONG LEARNING CENTER

LLC is a learning community of peers, committed to promote, ongoing education among and beyond our graduates
